

Wings4innovation GmbH ([www.w4i.org](http://www.w4i.org)) was founded as facilitator for the translation of promising results from Austrian research organisations in the field of life science into professional drug discovery projects and their commercialisation. In this context, wings4innovation releases a

## Guide for Submission of Project Proposals

at [info@w4i.org](mailto:info@w4i.org)

- I. **Submitter:** PI and organisation
- II. **Project Title:** biological target/pathway and type of modulation
- III. **Project Summary:**
  - a. Scientific hypothesis
  - b. Innovation aspect / unique selling point
  - c. Status of the proposed project:  
biology, genetics, chemistry, pharmacology, medical findings
  - d. Level of validation of disease association
  - e. Necessary next steps, materials, models etc. to achieve proof of concept in a suitable disease model
- IV. **Project Materials:**
  - a. Please list all available biochemical, cellular and *in vivo* test systems; where appropriate including orthogonal read-outs and counter assays
  - b. Please list all available compounds, chemical and biological tools
- V. **Cooperative network related to project:**
  - a. Motivation to submit the project to the TRC
  - b. Current funding of the project
  - c. Academic/industrial collaboration partners, scientific network
  - d. Have you submitted the project elsewhere for funding?
  - e. Would you be committed to play an active role in the translation of the project?
- VI. **Intellectual Property** (if applicable):
  - a. Please provide copies of all related invention disclosures
  - b. Please list all related patent applications including title, number, date filed, and search reports, if available
